Brownie Bake Sale

On Friday February 10th, our Philanthropy Chair, Taylan Mansur, held a brownie bake sale where all proceeds went to the Earthquake Relief Fund for Turkey and Syria. The night before, brothers gathered to make over 200 brownies. The next day, our brothers operated the selling table from 12-5pm while Stevens students passed by in between classes. We sold every last brownie and were able to raise over \$700! Big thanks to Taylan for organizing this very successful event and helping change people's lives for the better.

NEW MEMBERS!

Friday night on February 3rd, we were happy to accept a new class to the Sigma Phi Epsilon New Jersey Alpha Chapter. Thank you to Lucas Acocella, the brothers that helped with the interview process, and the rest of the Recruitment Committee for organizing multiple recruitment events during the first two weeks of the semester. Some of our events included spikeball games with the brothers, a football watch party in the chapter room, and our unique semesterly hosted event in the house called The Ocho. Our goal this semester to recruit 16 new members, the same number of new members that we had the previous semester. Despite setting a high bar for ourselves, we still managed to crush it and accepted 17 NEW MEMBERS during bid night.

Intramural Sports

Every semester Stevens Campus Recreation holds intramural sports leagues for fraternities, sororities, and unaffiliated teams to compete in. This semester, the sports are Floor Hockey, Volleyball, and Basketball. The Floor Hockey team has a 2 win 1 loss record and the Basketball team has a 2 wins 0 losses. At the moment, Intramural Volleyball has not started. We hope to keep the lead against the other fraternities and

maintain the momentum for playoffs later in the semester. Our brothers play their hearts out in these games, and we are also happy to have many new members join in on these sports events. We love having our brothers compete in Sound Body events such as these and are proud of the sportsmanship they have shown in both Intramural Floor Hockey and Basketball!

Mr. Heartthrob 2023

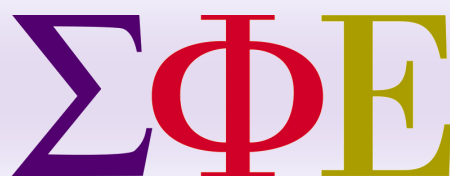

Congratulations to our brother Taylan Mansur for taking home the trophy in the 2023 Mr. Heartthrob event hosted by our Stevens Alpha Phi sorority! He along with a few of our brothers put on a stellar performance at the UCC Techflex on February 28th while raising awareness about women's heart health.

Other

On the first weekend of February, the officers of SigEp NJA attended the Carlson Leadership Academy. There, brothers worked with other chapters and learned some skills and tools to be a successful leader, for themselves and for the chapter. Work weekend was the following weekend on February 12th, where brothers helped work together to clean and tidy the house.

The chapter also had their first study session on Wednesday February 22nd from 4-6pm with Alpha Phi Omega and Sigma Psi Zeta, which had an amazing turnout. We are preparing for Conclaive and are currently writing our Buchanan Cup applications, hoping to get our 8th cup in a row!

Thank You!
